BeneVision Central Monitoring System

SAFETY

Safety checks
- General overview of system integrity, system and accessories are visually clean
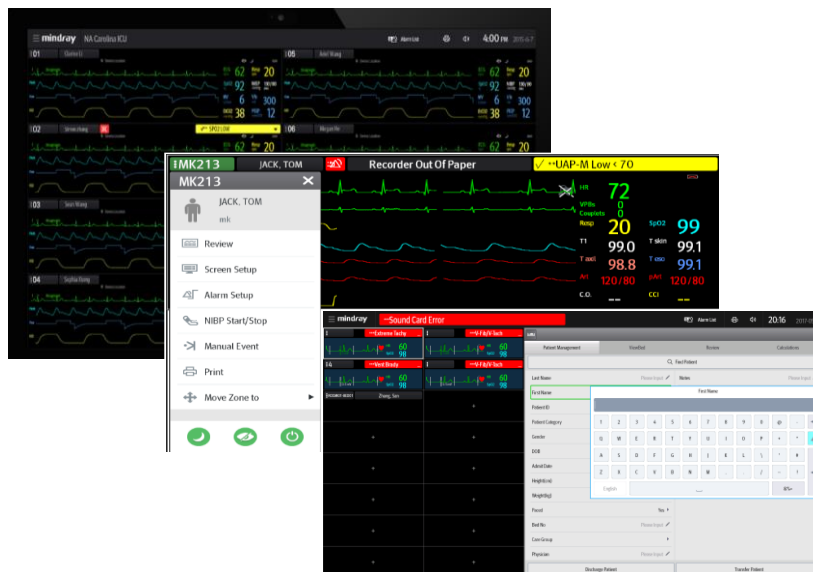

Cleaning
- Adhere to the **Operators Manual** for advice on cleaning agents
- Follow hospital policy, but with an awareness that agents utilised by the hospital may cause damage to the equipment over time

PATIENT ADMISSION & DISCHARGE

Admitting a patient
- Ensure that the bedside monitor is switched on, and not in **standby mode**
- Check that the previous patient has been **discharged** from the **Central Monitoring System**

- Within the **Multibed View**, click the mouse in the monitored patient bed number ![BED 1] to open the drop down menu

- Select the patient symbol ![patient icon] in the drop down menu to open the **Patient Management** menu screen
- Enter appropriate patient data
- Select ![Save] to confirm and save

Discharging a patient

- Within the **Multibed View**, click the mouse in the monitored patient tile to open the **View Bed** menu
- Select the **Patient Management** tab located in the upper left hand side of the **View Bed** menu screen
- Select **the Discharge Patient** tab located at the bottom of the **Patient Management** menu
- The **Discharge Patient** menu appears - select the appropriate option, followed by **OK**
- The previous patient has now been discharged
- Select **X** to close the menu

PATIENT MANAGEMENT

Assigning a patient to a care group
- Select **Patient management**
- Click on **care group**
- Choose a colour form the drop down menu
- Press **save**

Transferring a patient to another bed space
- Ensure the previous patient in the destination monitor has been discharged
- Open the **Patient Management** menu screen
- Select the **Transfer Patient** tab located at the bottom of the **Patient Management** menu
- Within the **Transfer Patient** menu, select the destination bed, followed by **Ok**
- **Are you sure you want to transfer this bed to... → OK**
- **Transfer Patient Succeeded → OK**

Please Note: Where possible, use the T1 to transfer the patient to the next location

Locating and re-admitting a patient
- **Patient Management → Find →** enter search criteria e.g. name or hospital number → Choose the patient to be readmitted and Select the ⬚ button

ALARMS

Setting alarm limits
- Within the **Multibed View**, click the mouse in the monitored patient bed number `BED 1` to open the Drop-down menu
- **Alarm Setup →** adjust **High** or **Low** limit as required → **X** to exit the **Alarm** menu

Central Monitoring System Silence (depending on configuration)

- Select the 🔊 symbol at the top of the screen
